

Affordable Flying from your own strip.

Become a 1/3rd owner of this beautiful late model Cessna 150M £4,500

Excellent paint and original good condition interior, this 150 has never been a training aircraft. No expense spared on maintenance, brand new annual (EASA non expiring C of A) October 2009.

Fly from your own private 800m+ grass strip in central Lincolnshire close to Grantham, Lincoln, Sleaford and Newark.

G-BPWG lives at the front of the hangar, shared with one other aircraft, on this well drained strip, so all-year operations no problem.

An easy going, well managed group, with only 2 others in group, so availability is no problem at all. A great low-cost, hour builder or touring aircraft, for easy and very affordable flying.

£65pcm/£50 hour wet, with a very healthy engine fund.
